Lacey Sturm, Not Your Fight

Stand up
You will face the raging storm around you
Don't turn
Just sing out your faith and let it ground you

I want you to remember what I told you
Soak it in until you feel my ghost hold you
And I will set you free from every enemy
And you will sing about the way that I have loved you

Don't be afraid
Let fears wash away tonight
Just know that this is not your fight
Take a deep breath
Right here at the edge of night
Just know that this is not your fight

Go now
Darkness will move as you will walk on
Rejoice
You're gonna watch me throw this mountain

I want you to remember what I told you
Soak it in until you feel my ghost hold you
And I will set you free from every enemy
And you will sing about the way that I have loved you

Don't be afraid
Let fears wash away tonight
Just know that this is not your fight
Take a deep breath
Right here at the edge of night
Just know that this is not your fight

I'll be your defense
The victory dance inside
Believe I'm gonna win tonight
My love's not afraid
I'll teach you the way of light
That overcomes every night

Don't be afraid
Let fears wash away tonight
Just know that this is not your fight
Take a deep breath
Right here at the edge of night
Just know that this is not your fight

I'll be your defense
The victory dance inside
Believe I'm gonna win tonight
My love's not afraid
I'll teach you the way of light
That overcomes every night
