Lacey Sturm, Wonderful

This world is ending faster than you think
We will float and concrete will sink
And I will bring your heart to the brink
And all of these questions dragging you under

Will only be answered when you start to wonder
Wonder wonder wonderful
This is what you're made for

Wonder wonder wonderful
Open my eyes till I see it all
Open my eyes till I see it all

So glean and learn
Humiliate the world
All crowns on the ground
We have worshiped creation
The price for these lies cost
Every generation
So glean and learn
Humiliate the world

Wonder wonder wonderful
Open my eyes till I see it all
Open my eyes till I see it all

The uncreated light is a fire
That burns and blinds every liar
The truth doesn't move it's a gift
To anyone who receives it

Fear and trembling faith and love draw near
Come surrender
Oh my God is here

Glean and learn
Humiliate the world
All crowns on the ground
We have worshiped creation
The price for these lies cost
Every generation
So glean and learn
Humiliate the world

I'm so afraid to see it all
So I look away
Forgive me Lord
I'm so afraid I'm trembling
How can I stay in your presence Lord
Kyrie Eleison
Kyrie Eleison

So glean and learn
Humiliate the world
All crowns on the ground
We have worshiped creation
The price for these lies cost
Every generation
So glean and learn
Humiliate the world

Wonder wonder wonderful
Open our eyes till we see it all
Wonder wonder wonderful

Open our eyes till we see it all
Wonder wonder wonderful
Open our eyes till I see it all
Wonder wonder wonderful
Open our eyes till we see it all
