Lady GaGa, Look What I Found (A Star Is Born)

I’m alone in my house
I’m out on the town
I;m at the bottom of the bottle
I;m there knocking them down

I can’t get back up on my feet
see the lights all on the streetlights stars

but look what I found look what I found
another piece of my heart
just lying on the ground

another foggy day
I;m looking for a light
and my only prayer is working tonight

I can’t get myself out of bed
hear these voices in my head like a song

but look wht I found
somebody who loves me
look what I found
somebody who carries
around a piece of my heart
just lying on the ground

when I met you I was blown to pieces
heart all o ver the floor
even since you put me back together
I can’t believe it, can’t believe it
