Liam Payne, All I Want (For Christmas)

tell me where did we go wrong
we should be singing Christmas song
instead of shouting all night long
like we do

we keep fighting in the street
when we should be home wrapped in the sheets
putting presents underneath the tree
me and you

I know we've had our fair share
of breaking up
and making up
but I promise you we'll get there
so don't give up, no, no!

if we can make it through December
maybe we'll make it through forever
cos all I want for Christmas
is you and me to fix this
yes, if we make it through December
every New Year we'll be together
baby all I want for Christmas
is you and me to fix this

it hasn't been the greatest year
but through thick and thin we made it here
just keep holding on to me
and I'll hold you

but we made it through the hardest part
and I followed you the brightest star
I just wanna be where you are
right where you are

All I want, yeah
All I want, yeah
All I want, yeah
All I want, yeah

baby all I want for Christmas
is you and me to fix this
baby all I want for Christmas
is you and me to fix this
