Little Big Town, Pain Killer

Don't need no whiskey
When I've had a bad day
No prescription honey
when my skies are grey

No poppin the pills
No smokin the pills
That make me feel okay
But you go down easy baby
I could drink you by the case

You're my painkiller
A little dose of you goes a long long way
You're my painkiller
Will you take it away
You take it away

Don't need no fixin'
I don't need no therapy
You're love drunk kissin
Is my kinda remedy
You're always lookin to fall
You're like the hair of the dog
When I'm feelin cursed
Don't need no doctor honey
I don't need no nurse

You're my painkiller
A little dose of you goes a long long way
You're my painkiller
Will you take it away
You take it away /3x

You're my la la la painkiller
You're my la la la painkiller

Hey you're my painkiller
A little dose of you goes a long long way
You're my painkiller
You take it away /4x
