Little Mix, About The Boy

[Jade]
Something about
Something about the boy
Something about
Something about the boy
Something about
Something about the boy

[Chorus]
Just something about the boy

[Jesy]
It’s the verse in my head
The words that make stutter
The swag in my step
The change from gray to colour
I guaranteed bet.
Oh I found my lucky number
The feeling that you get
Can’t help but make me wonder

[Leigh-Anne&Perrie]
No need to try
He’s just right

[Jade]
He’s got that something
I can’t let nobody tell me no

[Leigh-Anne&Perrie]
No I don’t mind
Takes me high

[Jade]
I won’t stop until the boy is mine

[Chorus]
He got me good
I got it bad
He got me feeling like a girl gone mad
Got me running around like I’m a lovefool
Taking me down I can’t stop
He got me up
I can’t come down
He got me locked and I don’t want out
I know he’s playing my heart and I ain’t got no choice
There’s just something about the boy
Something about
Something about the boy
Something about
Something about the boy
Something about
Something about the boy
There’s just something about the boy

[Perrie]
It’s the first time we met
The lightning to my thunder
The green light on red
The kiss that pulls me under
It’s all there in front of me.
If you’re the test I got the answer
And I’m all that you need

[Perrie&Jade]
Now you finally get the chance to

[Jade&Perrie]
No need to try
He’s just right

[Leigh-Anne]
He’s got that something
I can’t let nobody tell me no

[Jade&Perrie]
No I don’t mind
Takes me high

[Leigh-Anne]
I won’t stop until the boy is mine

[chorus]
He got me good
I got it bad
He got me feeling like a girl gone mad
Got me running around like I’m a lovefool
Taking me down I can’t stop
He got me up
I can’t come down
He got me locked and I don’t want out
I know he’s playing my heart and I ain’t got no choice
There’s just something about the boy
Something about
Something about the boy
Something about
Something about the boy
Something about
Something about the boy
There’s just something about the boy

[Perrie]
I know you like to play it tough
But I’m running out of time
It’s like I lost my self control

[Perrie&Jade]
'Cause you are the one
And you know what you’ve done
My poor heart's come undone

[Perrie]
Baby please

[Chorus]
He got me good
I got it bad
He got me feeling like a girl gone mad
Got me running around like I’m a lovefool
Taking me down I can’t stop
He got me up
I can’t come down
He got me locked and I don’t want out
I know he’s playing my heart and I ain’t got no choice
There’s just something about the boy
Something about
Something about the boy
Something about
Something about the boy

Something about
Something about the boy
There’s just something about the boy

[Outro]
Something about
Something about the boy (no, no)
Something about
Something about the boy
Something about
Something about the boy
Just something about the boy
