Little Mix, Between Us

When the curtains close
And all of the lights go down
Safe to say 'I'll stay'
I will always stick around
And I will fix your crown
And if you're knocked
I'm your rock
I won't stop, you will never be
In doubt /2x

Like, damn, we got history
Shared every misery
Lived every victory
Yeah, we got synergy
If they hurt you, they hurting me
That's just the way it be
We walked though the fire
And as the flames got higher
It made us survivors
It made us fighters, fighters

So, here's my vow
Starting from here and now
Nothing comes between us /2x
I swear that we won't lose this thing we found
Cause love will never leave us
Nothing comes
Between us /2x

Us /6x

Remember the day when we finally found ur wings
It changed our lives
Gave us power to do anything
Nd any time they break is down
We bpunce back
Every track
Had your back
So you will never be in doubt

Damn, we got history
In all these sweet melodies
ived every victory
We got synergy
If they hurt you, they hurtin' me
that's just the way it be
The way it be
We walked though the fire
And as the flames got higher
it made us survivors,
i made us fighters, fighters

So, here's my vow
Starting from here and now
Nothing comes between us /2x
I swear that we won't lose this thing we found
Cause love will never leave us
Nothing comes
Between us /2x

Us /6x
