Little Mix, Compare The Market | Meerkat Music F

Boy, have I told ya?
I swear you put the sun up in my sky
When it's cold, you pull me closer
So hot it's like the middle of July (July)

Wanna have a little taste, so let me delay you (Delay you)
Nothing better than your skin on mine (Skin on mine)
I've been looking for the feeling looking all my life
Boy you give it to me every time

Can we make it all night, we don't stop
Fill up on my body, babe, oh
Touch me like a summer night, you feel like a holiday, oh
Up all night, we don't stop, fill up on my body, babe
We're just dancing the night away
Boy, you feel like a holiday

So I'ma let go
No one else in the world could ever come close to you, baby (Oh-oh)
Close to you, baby (Oh-oh)
We're taking it slow
We're never everlasting forever, my baby (Oh-oh)
You're turning me on

Boy, have I told ya?
You give it to me like no other guy
We got that heat, like the summer (Summer)
And that's why I'm so glad I made you mine

Wanna have a little taste, so let me delay you (Delay you)
Nothing better than your skin on mine (Skin on mine)
I've been looking for the feeling looking all my life
Boy you give it to me every time

Can we make it all night, we don't stop
Fill up on my body, babe, oh
Touch me like a summer night, you feel like a holiday, oh (Holiday, yeah)
Up all night, we don't stop, fill up on my body, babe
We're just dancing the night away
Boy, you feel like a holiday

So I'ma let go
No one else in the world could ever come close to you, baby (Close to you, baby)
Close to you, baby (Close to you, baby)
We're taking it slow
We're never everlasting forever, my baby
You're turning me on

So put your love on me, up on me
Oh boy, I love you when you touchin' me, holdin' me
The way nobody put that thing on me
Up on me, like you do
Feel like a holiday, you know that I want it, babe

Can we make it all night, we don't stop
Fill up on my body, babe, oh
Touch me like a summer night, you feel like a holiday, oh
Up all night, we don't stop, fill up on my body, babe
We're just dancing the night away
Boy, you feel like a holiday

So I'ma let go
No one else in the world could ever come close to you, baby (Close to you, baby)
Close to you, baby (Close to you, baby)

We're taking it slow (Slow)
We're never everlasting forever, my baby
You're turning me on
Turning me on, yeah
