Little Mix, I Love You

[Jesy]
Uh oh, uh oh, here I go again, baby, baby
I hear your name and it's like I'm breaking, aching
You still got that power hanging over me
It's always over but still happening

Uh oh, uh oh, here I go again, baby, baby

[Jade]
I just wanna scream out 'til my voice breaks
Even if the tears fall and my heart hates me
Baby I love you

[Leigh Anne]
Uh oh, uh oh, don't know how I'm still breathing, breathing
I got this hole up in my heart baby, baby
And it doesn't matter what no one say
Even though it's broken, I love you anyway

Uh oh, uh oh, here I go again, baby, baby

[Perrie]
I just wanna scream out 'til my voice breaks
Even if the tears fall and my heart hates me
I just wanna know how I can save me
Even if these three words choke and take me
Baby I love you

[Jesy]
I feel your touch when I'm alone at night
But it's just me who's holding tight
And this life don't feel like you
There's nothing left but these I love you's

[Jade]
I just wanna scream out 'til my voice breaks
Even if the tears fall and my heart hates me

[Perrie]
I just wanna know how I can save me
Even if these three words choke and take me
Baby I love you

[Outro]
I love you
Baby I love you
I love you
Baby I love you
