Little Mix, See Me Now

Jesy:
I feel the rain on my skin
Wash away all the pain I was in
I see the sun in the sky
No longer know how it feels to cry

Jade:
And it really doesn't matter
So what? So what?
That I've been hesitating so long, so long

Somebody turn up the light
'Cause right now must be my time to shine

All:
They said I couldn't, they told me that I wouldn't
But if they could see me now
They say I'm something, that I'm not scared of nothing
And the world will hear me shout
We say Oh oh oh oh Oh oh oh oh oh
Might call me crazy
But I've been thinkin maybe you would change your mind
If you could see me now

Leigh:
Drop me in the ocean, I'll swim
Put me in with the lions, I'll roar
There's a survivor within
So much stronger that I was before

Perrie:
They'll never slow me down
So what? So what?
'Cause they were sleepin on it so long, so long

I'd rather leave that behind
'Cause right now must be my time to shine

All:
They said I couldn't, they told me that I wouldn't
But if they could see me now
They say I'm something, that I'm not scared of nothing
And the world will hear me shout
We say Oh oh oh oh Oh oh oh oh oh
Might call me crazy
But I've been thinkin maybe you would change your mind
If you could see me now

They said I couldn't, they told me that I wouldn't
But if they could see me now
They say I'm something, that I'm not scared of nothing
And the world will hear me shout
(I'm not scared of nothing!)

(Chorus)
They said I couldn't, they told me that I wouldn't
But if they could see me now
They say I'm something, that I'm not scared of nothing
And the world will hear me shout
We say Oh oh oh oh Oh oh oh oh oh
Might call me crazy
But I've been thinkin maybe you would change your mind
If you could see me now
