LP, Mean Streak

Once upon a time, in the cold day light
I wanted her to love me and take me for life
But there was something in the way she was holding me tight
Hey yeah, hey yeah, hey yeah
My burning red heart started turning to ice
And now I'm feelin' meaner than a dog gone wild
Baby take me as I am
It'll be alright
Take me as I am
Gimme one more night

Heyyyy
I'm holding on for life
It's just my
Wayyyyy
Please stay one more night
It's in my eyes
I can't hide
I been on a mean streak miles and miles wide
Maybe that's just what you like, yeah

Gimme all your lightning, your thunderbolt
I'll play you every song that I ever wrote
Saying that I will when I know I won't
Hey yeah, hey yeah, hey yeah
Who needs the rescue
Who needs to get through
I think we all do
Ooooh oooh oooh ohh oooh
I think we all do

Heyyyy
I'm holding on for life
It's just my
Wayyyyy
Please stay one more night
It's in my eyes
I can't hide
I been on a mean streak miles and miles wide
Maybe that's just what I like

Yeahhhhh
Maybe that's just what I like, yeah
I think we all do
Maybe that's just what we like
