Lucie Jones, Never Give Up On You

Tell me you secrets
I'll keep them safe
No sign of weakness
It's a sign of faith
We'll stand tall
So you don't fall

You're not defeated
You're in repair
Don't have to call me
I'll always be there
We'll stand tall
So you don't fall

If you could see how far you've walked
You would see that's all not lost

I will never give up on you
I 'don't care what I've got to lose
Just give me your hand and hold on
Together we'll dance through this storm
I will never give up on you
You're the one that I'm running to
Just give me your hand and hold on
Together we'll dance through this storm

Under the surface
I see you glow
I'm right beside you
You're never alone
Don't let go
When you're so close

If you could see how far you've walked
You would see that's all not lost

I will never give up on you
I 'don't care what I've got to lose
Just give me your hand and hold on
Together we'll dance through this storm
I will never give up on you
You're the one that I'm running to
Just give me your hand and hold on
Together we'll dance through this storm

This madness
We're running through
This magic
It's inside you
It's madness / 2x

If you could see how far you've walked
You would see that's all not lost

I will never give up on you
I 'don't care what I've got to lose
Just give me your hand and hold on
Together we'll dance through this storm
I will never give up on you
You're the one that I'm running to
Just give me your hand and hold on
Together we'll dance through this storm
