## Foster The People, Sit Next to Me

and it's over, it's over I;m circling these vultures got me praying that it's longer feeling something rotten last time I saw you said: What's up? And pushed right through

then I tried to catch you bur we've always on the move and now it's over, we're sober symptoms of the culture and the night ain't getting younger

last call's around the corner feeling kinda tempted and I'm pouring out the truth just fading out this talk is cause now all I want is you

I'm saying come over here sit next to me we can see where things go naturally just say the word and I'll part the sea just come over here and sit next to m and I'll take you high, high

well, I ain;t frontin' my intention got your man outlined in chalk it's a midnight intervention got no plans to make it stop

last time I saw you said you wanna keep the light? but I'm here to tell you I'm not trying to change your mind it's alright /2x

yeah, come over here sit next to me we can see where things go naturally just say the word and I'll part the sea just come over here and sit next to m and I'll take you high, high

it's alright /4x

So come over here sit next to me we can see where things go naturally just say the word and I'll part the sea just come over here and sit next to me
