Major Lazer & DJ Maphorisa, Particula (ft. Nasty C

they told me
everybody's 15 minutes in a different time zone
and since I have it at the moment you're the one I wanna shine my light on
get your life /2x
little mama
won't you get our life on
ain't nothing cooler then the wrong moves
when you do them to the right song
the right song

let's shoot this movie
and put the shit on repeat
I hope this Mary's not making you fall asleep
before we hit the road
put our phones on silent
nobody tryna bring sand to the beach
What would it take to change your planes for the weekend?
coz I'm tryna kick it like EA
the whole thing
the pre party, the pre sex
then we hit Major League the G's at

I like you girl in Particula
you in Particula
I like you waist in Particula
I like you girl in Particula
you in Particula
I like you waist in Particula

I wanna give you what I'm feeling here
give me love one of these days
I knew the first time I saw you there
give me love one of these days
Carry, carry, carry go
… you already know mama
carry make we carry carry go
Me I can't lie
I kike you gal in particular
can I see you particulars
I been screening you like una pelicula
let's stir up!
I've come to see what's in your eyes
baby!

I like you girl in Particula
you in Particula
I like you waist in Particula
I like you girl in Particula
you in Particula
I like you waist in Particula
