

Galantis, San Francisco (feat. Sofia Carson)

i met you in a bar i san Francisco
said you used to have a car before the repo
smoking lucky cigarettes
think the smog went to my head
and now that summer night plays on repeat

we climbed the Golden Gate Bridge just to watch the stars collide
and played the Stevie Wonder songs a couple thousand times
I'm kinda scared to say it was the best night of my life
but I know I won't forget san Francisco
no, I won't forget
I know I won't forget
I know I won't forget
that night in san Francisco

i met you in a bar i san Francisco

but when the sun came up we had to let go
when you took that greyhound bus
thought it was the end of us
but now you're all I dream of when I sleep
