Mandee, Song 2 Fall In Love 2 (ft. Maria Mathea)

I never needed somebody
just to make me feel hope
no like the …
don’t need somebody
somebody just to tell me I’m wrong

used to be the carless one
everything was just for fun
couldn’t take summer love to lift me up
from breaking my hearer
used to be the one who never care much for love
but not this time
I leaving from this trauma behind

looking for love
for someone to fall in love too
looking for love
for someone to fall in love too
I,I,I
for someone to fall in love too
I,I,I
for someone to fall in love too
I,I,I

they say, together we strong
but who can blame me for feeling I’m fine on my own
used to be the one who never care much for love
but not this time
I leaving from this trauma behind

looking for love
for someone to fall in love too
looking for love
for someone to fall in love too
I,I,I
for someone to fall in love too
I,I,I
for someone to fall in love too
I,I,I
