

# GUN\*S, ALL THE TIME

Please, slowly  
You never gonna change my mind  
Because your heart lonely  
We never gonna work it out

You gonna try no more  
I'd rather let you down  
You gonna cry no more  
I'd rather let you free to go

I can sleep all the time  
I can smoke all the time  
I can drink all the time  
I can dance all the time  
/2x

Dream about me  
And all the moments we could have  
You know the way to find me  
But you prefer to lose yourself

You gonna try no more  
I'd rather let you down  
You gonna cry no more  
I'd rather let you free to go

I can sleep all the time  
I can smoke all the time  
I can drink all the time  
I can dance all the time  
/2x

You gonna cry no more  
I gonna fly for sure  
/2x

I can sleep all the time  
I can smoke all the time  
I can drink all the time  
I can dance all the time  
/2x
