

Hurts, Slow

I can't breath
I can't sleep
I know, I can't afford you
But all I can think
When you take off your ink
It's over!

I just wanna love you
I just wanna hold you close
What you doing here is murder
When you whip your body slow
(Sloooooooooow)

When your body play with my soul
Take up my heart as an offering
'Cause when you grind you tease
It's still me with fear
It's over

I just wanna love you
I just wanna hold you close
What you doing here is murder
When you whip your body slow
(Sloooooooooow) x2

Whip your body
Whip your body slow
Whip your body sloooooow
I just wanna love you
I just wanna hold you close
What you doing here is murder
When you whip your body slow
(Sloooooooooow) x2
