MØ, Imaginary Friend

I am not the type
but I will let you
I will let you in tonight
I'm a little shy
but we could turn down
we could turn down all the nights
mmm if can picture it it's real
you don't need your eyes to feel

just watch me
watch me /2x
with your hands
let my
body /3x
be your brail
I'll be your imaginary friend
I'll be your imaginary friend
/2x

if you read my mind
you would know /2x
I;m satisfied
and I;m gonna be
everything you /2x
fantasieze
so please turn lights down if it's real
you don't need your eyes to feel

just watch me
watch me /2x
with your hands
let my
body /3x
be your brail
I'll be your imaginary friend
I'll be your imaginary friend
/2x

are we all alone out here?
record my heartbeat and send it out into the Universe
do you think anyone will ever hear?

watch me
watch me /2x
with your hands
let my
body /3x
be your brail
I'll be your imaginary friend
