Natalia Szczypuła, Beautiful Trauma

we were on fire
I slashed your tires
it’s like burn so bright
we burn out
I made you chase me
I wasn’t that friendly
my love, my drag
we’re fucked up

cause I’ve been on the run so long
they can’t find me
you waken up to remember I’m pretty
and when the chemicals leave my body
they’re gonna find me in a hotel lobby

cause those though times
they keep coming
all night laughing and fucking
Some days like I’m barely breathing
after we were highj in the love
doped out

it was you
the pill I keep taking
the nightmare I waken
There’s nothing
no, nothing
nothing but you
my perfect rock bottom
my beautiful trauma
my love, my love, my drag /3x
ma love, my drag, we’re fucked up

you pushed a hole in the wall
and I Framed it
I wish I could feel things like you
everyone’s chasing that holy feeling
and if we don’t stay lit qw’ll blow out
blow out

cause those though times
they keep coming
list night
I might have messed it up again
some days like I’m barely breathing
after we were high on the love
doped out

it was you
the pill I keep taking
the nightmare I waken
There’s nothing
no, nothing
nothing but you
my perfect rock bottom
my beautiful trauma
my love, my love, my drag /3x
ma love, my drag, we’re fucked up

cause those though times
they keep coming
all night laughing and fucking
Some days like I’m barely breathing
after we were highj in the love

doped out

it was you
the pill I keep taking
the nightmare I waken
There’s nothing
no, nothing
nothing but you
my perfect rock bottom
my beautiful trauma
