Noah Cyrus, Stay Together

I drank straight to my head
I went outside to smoke a cigarette
And I shattered my phone on the cement
But I don’t give a fuck

Now I’m not making sense
I’m laughing at a joke that I don’t get
I’m acting like these strangers are my friends
But I don’t give a fuck

Yelling at the DJ
Bro, your shit is boring
Doing things that will not regret until the morning
Imma make it rain down
I;m just here for fun
And I don’t care about the money

Nothing lasts forever
But wouldn’t it be nice to stay together for the night
We can do whatever
As long as we’re together the we’re gonna be alright
Don’t leave just wait
You can tell your friends that you’re staying out late
Singing
Nothing lasts forever
But wouldn’t it be nice to stay together for the night

Alright, alright finish your G and T
The Uber’s here so now it’s time to leave
Hey, driver, could you pass the aux for me
Go ahead and turn it up

Head up of the window
You could call me shameless
Waiving to my people
Now I’m acting like I’m famous
Tell him take the long way
We could see the sunrise
Damn, you look so pretty
When that sunlight hits your blue eyes

Nothing lasts forever
But wouldn’t it be nice to stay together for the night
We can do whatever
As long as we’re together the we’re gonna be alright
Don’t leave just wait
You can tell your friends that you’re staying out late
Singing
Nothing lasts forever
But wouldn’t it be nice to stay together for the night

For the night /2x
I drank straight to my head
I went outside to smoke a cigarette
And I shattered my phone on the cement
But I don’t give a fuck

Nothing lasts forever
But wouldn’t it be nice to stay together for the night
We can do whatever
As long as we’re together the we’re gonna be alright
Don’t leave just wait
You can tell your friends that you’re staying out late
Singing

Nothing lasts forever
But wouldn’t it be nice to stay together for the night
