Remo, Against The World (ft. Jeremi Sikorski)

I was worried
I was losing
Couldn't even feel a high
I was down
Staying wounded
Was afraid to feel alive

You were there
In your own world
And the night left me breathless
I, I was running
Coz I want you so recklessly

And now
Nothing can bring us down
We're living up in the clouds
Just with you girl
And it's us Against The World
And it's us Against The World

Find myself
Getting higher
Having dirty feel as ...
Only hunt like a tiger
Try not breaking another heart
I was dump
Being stupid
... lose again for love
Now my … are in ruins
You break them down every time

And now
Nothing can bring us down
We're living up in the clouds
Just with you girl
And it's us Against The World
And it's us Against The World

Nothing can bring us down
We're living up in the clouds
Just with you girl
And it's us Against The World

Don't fall back
Don't fall back, I've got you
Don't fall back
Don't fall back, I've got you

And it's us Against The World
And it's us, And it's us against The World
Don't fall back, I've got you
