

# Jessie Reyez, BEFORE LOVE CAME TO KILL U

Love you in the worst way  
You knock me down like a heavyweight  
We fell in love got a ko, oh no!  
Too damn young so we broke up no go  
So much for a wedding date

I know nobody gets out of love alone  
We either breakup when we're young  
Or we say goodbye when we die  
For a moment at least  
I know you were mine  
And it was beautiful  
But winter comes  
And roses don't survive  
It's getting late  
And i should go

But i wanna hold you  
Like it's june in the west end  
Back when you were my best friend  
Before love came to kill us  
We're not supposed to  
But i can't learn my lesson  
I miss when you were my best friend  
Before love came to kill us  
So under the mask the moon  
Could we dance in the past  
Before love  
Before love came to kill us

Life's good and i am getting paid  
But i think about you yesterday  
When i miss you i meditate  
Tears come out like a renegade

Cause nobody gets out of love alone  
We either breakup when we're young  
Or we say goodbye when we die  
For a moment at least  
I know you were mine  
And it was beautiful  
But winter comes  
And roses don't survive  
It's getting late  
And i should go

But i wanna hold you  
Like it's june in the west end  
Back when you were my best friend  
Before love came to kill us  
We're not supposed to  
But i can't learn my lesson  
I miss when you were my best friend  
Before love came to kill us  
So under the mask the moon  
Could we dance in the past  
Before love  
Before love came to kill us
