

Jessie Ware, Please

i wanna place where
golden moments least forever
face to face
you look like someone i cluld treasure

i can't help it
when the vision lifts
i gotta be next to you
cause i wanna to be next to be
i gotta be next to you

so please
show my you know to be sweet
i could be a girl from your dreams
if you wanna get it in my life
listen always care to play nice
you want yours i gotta get min
i'll give you the world if oyu
please me, please me
we can make it mutual

do you need company?
Do you belong to me?
wE can make it mutual

i'll give you a little
if you give me a little
so don't upset the rhythm tonight
heaven's where we're headed
i meant it when i said it
if you want yours
i gotta get mine

i can't help it
when the vision lifts
i gotta be next to you
cause i wanna to be next to be
i gotta be next to you

so please
show my you know to be sweet
i could be a girl from your dreams
if you wanna get it in my life
listen always care to play nice
you want yours i gotta get min
i'll give you the world if oyu
please me, please me
we can make it mutual

do you need company?
Do you belong to me?
wE can make it mutual
