

Jonas Blue, MAX, Naked

You only say you love me when we're naked
When you're banging on my bedroom door
You only say you love me
When you want me
And we're naked
When you're laying on my bathroom floor

Hour glass shape for a figure
Silhouette set me off like a trigger
God damn, i am the man when i am with her

When you call me late at night
Tell me you were just passing by
You got something else on your mind
I am yours

But in the morning
When you're waking up by my side
And you forgot what you said last night

You only say you love me when we're naked
When you're banging on my bedroom door
You only say you love me
When you want me
And we're naked
When you're laying on my bathroom floor

What we do
Feel so good
I don't stop you when i should
When we go
We go so hard
I almost let you break my heart

You only say you love me when we're naked
When you're banging on my bedroom door
