Sia, Free Me (starring Zoe Saldana & narrated by

I don’t want to hold your gaze
I’m scared what I might see there
Found myself in this place
And I’m a burning fire

Peace may come
I hope it won’t take long
Just a faith I cannot see
Bring me home
I’m in there all along
Just me and my melody

And free me /2x
From this pain I’ve been running from
I’m tired and I’m free falling
And free me /2x
From this pain I’ve been running from
I’m lost and I’m calling you

I don’t have a way back down
Stepping even further
Take my hand and turn me around
I’m listening to myself

Peace may come
I hope it won’t take long
Just a faith I cannot see
Bring me home
I’m in there all along
Just me and my melody

And free me /2x
From this pain I’ve been running from
I’m tired and I’m free falling
And free me /2x
From this pain I’ve been running from
I’m lost and I’m calling you

I’m calling you
And though I can’t undo
All the things I put you through
And I can’t take your hand
Lifted high above everything
Only you

And free me /2x
From this pain I’ve been running from
I’m tired and I’m free falling
And free me /2x
From this pain I’ve been running from
I’m lost and I’m calling you
