

Julija Samojłowa, Flame Is Burning (Eurovision 2017)

Day and night and all I do is dreaming
Pacing side and staring at the ceiling
I wish I had the answers
I wish I had a courage to know

Everybody is talking about the reasons
All I wanna do is find the feeling
I wanna feel the power
I wanna go to pieces I don't know

If there's a light
Then we've to keep dreaming
If there's a heart
Then heart then we must keep believing inside

After the night there's light
And in the darkness times a flame is burning
It shines so bright

Deep in the night love is a light
And in the dark a flame is blurning
A flame is burning

All my life I'm searching for the meaning
Now, I've learned to seeing is believing
I wish I knew where light is
I wish I had the courage to go

After the night there's light
And in the darkness times a flame is burning
It shines so bright

Deep in the night love is a light
And in the dark a flame is blurning
A flame is burning

An open window for love
And let the wind blow into the hearts
And we're never apart and you'll know

After the night there's light
And in the darkness times a flame is burning
It shines so bright

Deep in the night love is a light
And in the dark a flame is blurning
A flame is burning
