Silia Kapsis, Night Out

It was just us
Then you came along
Changed my intentions
If you can trust
Don’t need to stay alone
I think I should mention

I don’t plan on sleeping at all cause I (I don’t plan on sleeping at all)
Don’t think about tomorrow
It’s all about tonight
When you see me falling you can hold me tight (When you see me falling you can hold me)
It’s not about tomorrow
It’s all about tonight

Cause this ain’t just another night out, (night out)
You stole my attention
I’ll give you my affection
This ain’t just another night out, (night out)
I’m loving the suspension
Lets stay in this dimension.

Ain’t another night

It’s feeling more just like love, (like love)
I know it seems insane
But I have no objections
If your sick of, (sick of)
Being all alone
You can follow my directions

I don’t plan on sleeping at all cause I (I don’t plan on sleeping at all)
Don’t think about tomorrow
It’s all about tonight
When you see me falling you can hold me tight (When you see me falling you can hold me)
It’s not about tomorrow
It’s all about tonight

Cause this ain’t just another night out,(night out)
You stole my attention
I’ll give you my affection
This ain’t just another night out, (night out)
I’m loving the suspension
Lets stay in this dimension.

Out, (It aint another)
Night out, (It aint another)
Night out, (It aint another)
That this ain’t just another night out
X2

As we keep getting closer
My head on your shoulder
And the nights getting older
With you I’m hoping

That this ain’t just another night out (no no no)
You stole my attention
I’ll give you my affection
That this ain’t just another night out (this ain’t just another night)
I’m loving the suspension
Lets stay in this dimension (ohhhh)

Out, (It aint another)
Night out, (It aint another)

Night out, (It aint another)
That this ain’t just another night out
X2

Now it’s just us
When you came along
Changed my direction
