

K BLEAX, Survival

Darling, I took time to survive
In this jungle full of human pride
When asking me questions
Don't expect me to reply
Coz darling, I took time to survive

The whole human race
Is making me hate this place
You fight, you kill and you steal
Your own desire, you chase
Stop looking into my face
I need to quit that race
You're making me hate this place

I was hiding in this shadow of my life
Waiting for you to skip the time
When asking me questions
Don't expect me to reply
Coz I was hiding in the shadow of my life

Darling, I took time to survive
In this jungle full of human pride
Darling, I took time to survive
In this jungle full of human pride

The whole human race
Is making me hate this place
You fight, you kill and you steal
Your own desire, you chase
Stop looking into my face
I need to quit that race
You're making me hate this place
/2x

You held me down and then
Tried to make me break
The confusion on your face
Is driving me insane
I can see you looking down
Boy, so don't become the same
The struggle on my face
Should drive you insane
