Sofia Carson, R3HAB, I Luv U

you the type of guy to write a song about
you lay back
nobody knows what's on your mind
we been talking for a while now
we been talking for a while now

and I been falling for a while now
you say that, everything whit you is fine
even though we're always hanging out
I get the feeling that you're not around

we were
always
up to
something
now you're all in your head

I love you
but I wish It wasn't true
cos I know you think of her
when I am lying next to you

I love you
and I don't get over her
and I can't get over you

you the type of the guy to tell your mom about
you're laid back
but running circles round my mind
I been falling for a while now
I been falling /3x
but you've been lying for a while now
you say that everything whit you is fine
even though we're always hanging out
I get the feeling that you're not around

we were
always
up to
something
now you're all in your head

I love you
but I wish It wasn't true
cos I know you think of her
when I am lying next to you

I love you
and I don't get over her
and I can't get over you
