

Kaleo, Break My Baby

sun is down on east side
while we all turn a blind eye
you know I've got your back
but would you ever do that for me?

billy boy he's gifted
you know you can't deny it
don't leave us empty handed
cause you know we don't deserve that
from you

I want to break my baby
you know she loves to fake it
I want to break my baby
hold her down
bring her down now
