SZA, The Anonymous Ones (z filmu Drogi Evanie

Ever look at all the people
Who seem to know exactly how to be?
How to be, how to be, no
How to be
You think they don't need piles
Of prescriptions to function naturally?
Functioning natural

Take a look and you might catch it
Stay a minute more
minute more /4x
therr’s a little momnent
after the sunny smile
their eyes fall to the floor
to the floor /4x

and tehn truth starst peaking through
they’re a lot like me and you
thay can fake a smile too

The anonymous ones
Who never let you see the ache they carry
They carry, they carry, they carry
All those anonymous ones
Never name the quiet pain they bury
They bury, they bury, they bear

Keep on keeping secrets
That they think they have to hide
What if everybody's secret is
They have that secret side?

(??)

and tehn truth starst peaking through
they’re a lot like me and you
thay can fake a smile too

The anonymous ones
Who never let you see the ache they carry
They carry, they carry, they carry
All those anonymous ones
Never name the quiet pain they bury
They bury, they bury, they bear
