

# Krewella, Be There

In the dead of the night  
When your body's sleepless  
It's raining feelings now  
Just wanna get it right  
Searching for meaning in this cold angle town

I'll be the warmth in your empty hotel  
I'll make it right when you're going through hell  
I'll be the call when there's no one to tell  
Make you light up, light up

Imma, imma be there / 4x

When life hits you hard like a train wrack  
Don't you believe it'll break you

Imma, imma be there

If you lose your mind  
I'll be your anchor holding your body down  
I'll stay a while  
From now until late to kiss in this angel town

I'll be the soles of your shoes on the ground  
Running with you till you're safe and you're sound  
We'll make it out of this angel town  
Make you light, light up

Imma, imma be there / 4x

When life hits you hard like a train wrack  
Don't you believe it'll break you

Imma, imma be there
