Tiësto & Oliver Heldens, The Right Song (ft. Nata

Feel it in my bones
This anticipation
See him through the smoke
So hard to be patient

There is a clock in mind
We running out of time
Killing it goes so easily
I want to feel him breathe
I want his hands on me
You know there's just one thing I need /4x
Just one thing I need, I need, I need, I need, I need

Alright!
Come on, lift me with the right song
I've been waiting for it all night, baby
Before they turn the lights on,
Come on, lift me with the right song

Run that bass, run that bass
Through my veins
Come and take me away, take me away

Alright!
Come on, lift me with the right song /2x

Don't know where this goes
I let the wind takes me into the unknown
No more hesitating

There is a clock in mind
We running out of time
Killing it goes so easily
I want to feel his breathe
I want his hands on me
You know there's just one thing I need /4x
Just one thing I need, I need, I need, I need, I need
