no don’t give me your name

just follow me
follow me
follow me

wanna take off my rings in my Callifornia King
Let me get you alone
just follow me /3x
follow me home

let’s just feel the feeling /2x
high up as the cellin
let’s just /2x
feel this feelin
le’s just feel this moment
we can make it last
let’s just feel this feelin
right now /2x

you and that faded love
I love /4x
you and that faded love
I love /4x
you and that faded love
I love /4x
you and that faded love

I can feel every breath on the edge of my neck
cigarettes and cologne
just follow me /3x
follow me home
no I don’t know the time and I don’t know what’s next
but I know that it’s on
just follow me /3x
follow me home

let’s just feel the feeling /2x
high up as the cellin
let’s just /2x
feel this feelin
le’s just feel this moment
we can make it last
let’s just feel this feelin
right now /2x

you and that faded love
I love /4x
you and that faded love
I love /4x
you and that faded love
I love /4x
you and that faded love

before I give my white cup op
before I give my whit girl up

before I gie my half_Dominican girl up
I need real love
I;m on my fourth stripper of the day
I keep a full thoroughbred Jamaican
I;ma find your G-Spot like you drop your location
Man I’ma give all this shit up all day
Mam I’ma give all this shit up one day
Get some love from a video vixen on the runway
you can’t hold it against a king, baby
you shoulda made me better, what I need
You shoulda upgraded me already
I done spent a million on you already
if you love
you can teach me, wanna learn
take your farther then Jerusalem when it’s my turn
We so spiritually connected
We going in the right direction

you and that faded love
I love /4x
you and that faded love
I love /4x
you and that faded love
I love /4x
you and that faded love
