## Kygo, Kids in Love (ft. The Night Game)

this is our last goodbye don't come to find me So hard to see you cry please, somebody blind me Cause I can feel it I'm still logging onto every word my heart is beating and I'm sorry that I left you hurt

We were kids in love and then we grew up but won't you hold me close tonight like we're kids in love kids in love kids in love kids in love

engine on, in the drive running for hours slowly, we twist the knife in folding like towers and I can feel it and we're running out of hope tonight I hear you breathing as we're hanging on to you and I

We were kids in love and then we grew up but won't you hold me close tonight like we're kids in love kids in love kids in love kids in love kids in love
