

Kygo, Stranger Things (ft. OneRepublic)

The Stranger things
A life, A life of stranger things (very far)
we're stranger things
For stranger things (dream of places I've

We used to run around this ghost town
always thinking out loud
are we gonna get out?
I remember
We dream of places that we could go
Castles with the strange low
People that we don't know
I remember

We left a life
That's ordinary from the start
We looked for stranger things
'Cause that's just who we are
Found me the edges something beautiful and loud
Like I'm picturing now

Castle glitter under Spanish skies
but I'm just looking out for you tonight
Snow white mountains in a foreign state
Tell me someday we'll get there
someday
someday
Oh-Oh
Oh-Oh

I see Technicolor shadow
Underneath your window
just in case you don't know
I can see it
You cast an unfamiliar day glow
Different than what I know
shining like a halo
I can feel it

We turned our back
on ordinary from the start
We look for stranger things
'Cause that's just who we are
Found me the edges something beautiful and loud
Show me the sky falling down

Castles glitter under Spanish skies
But I'm just looking out for you tonight
Snow white mountains in an ancient place
Tell me someday we'll get together
Someday
Someday
Oh- oh
Oh- oh
