

# Kygo, Undeniable (ft. X Ambassadors)

Lie to myself but I  
Don't believe a word and I  
Try to sabotage it but  
But when you're gone it hurts and I

I used to get cold feet  
I never go too deep  
I was scared of the sound of a heartbeat

But it's undeniable  
What i feel for you  
You know i've been wrong before  
But you're undeniable

You pull me in  
And i push you away  
Cause i am so paranoid  
I've got PTSD

But it's undeniable  
What i feel for you  
You know i've been wrong before  
But you're undeniable
