Tove Lo, Really Don't Like You (ft. Kylie Minogue)

scan you up and down
see you've got curves in all the places that count
oh you're in the crowd
he's looking at you and he looks happier

why /3x
did I go to this party?
thought I was done feeling sorry
know he'd be there with somebody
why did it have to be you?
I know I've got no right to
I know I've got no right to
really I just don't like you
you look prettier than I do tonight

you make it heard to have a good time
time /3x
I know I've got no right to
I know I've got no right to
really I just don't like you

you make it heard to have a good time
time /3x
now that is your fault
and when I hate on you

I am breaking that code
but you've got him
I don't /2x
how'd be fair to you
when I got my heart broke?

why /3x
did I go to this party?
thought I was done feeling sorry
know he'd be there with somebody
why did it have to be you?
I know I've got no right to
I know I've got no right to
really I just don't like you
you look prettier than I do tonight

you make it heard to have a good time
time /3x
I know I've got no right to
I know I've got no right to
really I just don't like you
