Treaty Oak Revival, Stop & Stare

I'm drowning in a river full of rye
Hanging out with the devil on a Friday night
Oh and she ain't ever been a friend of mine
Since I left town
It's getting hard to sleep in that old bed
I'll never forget and a damn word you said
You said it's over we're done we're finished go on and get out

I'll get out
And my heartbeat's sounding like rain on the rooftops
Dancing with a slut in a red and black tube top
Go for a ride and baby it won't stop there
And I'm heading for the coast underneath the moonlight
Asphalts glowing underneath the street lights
Thinking bout your big green eyes and your jet black hair
Lord as I stop and stare
Lord as I stop and stare

You were something I loved for what it's worth
She cussed a lot
Was never fond of church
She was a wicked woman who had it out for me
Still getting hard to sleep in that old bed
My eyes are black and they're bloodshot red
And when I think of you I find it hard to sleep

And my heartbeat's sounding like rain on the rooftops
Dancing with a slut in a red and black tube top
Go for a ride and baby it won't stop there
And I'm heading for the coast underneath the moonlight
Asphalts glowing underneath the street lights
Thinking bout your big green eyes and your jet black hair
As I stop and stare
Oh Lord as I stop and stare

And I'm running by moonlight
I'll be gone by sunrise
She's hot on my tail
And I'm running by moonlight
I'll be gone by sunrise
Lord I need some help
Yeah as I stop and stare
Oh Lord as I stop and stare
