VIZE x Anna Grey, Way Back Home

Darker days, a hurricane
Start a fire then you off again
It got cold, losin' game
Run in circles
Trying to find your way
Longer nights, losing sleep
You on the line
But you never speak
Just drift away
Into the deep
Into the deep

I can hear your silent call,
You're caught up, and letting go
And baby I want you to know,
I'll always be…

I can hear your silent call,
You caught up, and letting go
And baby I want you to know,
I'll always be your way back home
Your way back home
