Why Don't We, Hooked

you’ve got a bad reputation in my neighborhood
you drive me mad with temptation cause it taste so good
you know I wouldn’t walk away even if I could
it took one night, one try
damn, I’m hooked

you were there when I was low
you held me high
and baby when you take control
we can go all night
every single place we go, you start a fight
but then you kiss my neck and take a bite

everybody says I’m sleeping with the enemy
I don’t even care if you’re gonna be the death of me
me, me

you’ve got a bad reputation in my neighborhood
you drive me mad with temptation cause it taste so good
you know I wouldn’t walk away even if I could
it took one night, one try
damn, I’m hooked

I’m hooked
I’m hooked

I know that I shouldn’t touch but you twist my heart
cause I can never get enough once the feeling starts
baby, I’,m the gasoline and your kiss is the spark
but you take the wheel and crash my car

everybody says I’m sleeping with the enemy
I don’t even care if you’re gonna be the death of me
me, me

you’ve got a bad reputation in my neighborhood
you drive me mad with temptation cause it taste so good
you know I wouldn’t walk away even if I could
it took one night, one try
damn, I’m hooked

I’m hooked
I’m hooked

you got me under your influence
I swear I’m never gonna give you up
up¸ up, up , up, up , up, up , up

you’ve got a bad reputation in my neighborhood
you drive me mad with temptation cause it taste so good
you know I wouldn’t walk away even if I could
it took one night, one try
damn, I’m hooked
