X Ambassadors, HOLD YOU DOWN

we’ll be the last ones dancing
when the lights go out
when there’s no one to hold you
I will still hld you down
we’ll be the last once dancing
in the faceless crowd
when there’s no one to hold you
I will still hold you down

don’t talk but you speak so loudly
you smile but your eyes look cloudy
you say somebody left you broken
but I’m here with the door wide open

no matter what
no matter what
I’m yours
lows and the highs
lows and the highs
for sure
if you to go war
I go to war
for you
for you
