Yellow Claw, Light Years (feat. Rochelle)

Electric nights
Like fireflies
Time is frozen
Velvet skies
Like lightening vibes
We be floating

Cos when you touch me
I swear I can’t speak
Out of body
There ain;t no coming back
And when we touch me
It’s what my heart needs
And we can run free
I know that

We can be light years away
I know I can find you
We can be light years away
I know I can shine through
Anywhere /3x
I know I can find you
Anywhere /3x
I know I can shine through

World apart
We’re shooting star
Skies are open
A ray o sparks
Out beating hearts
Throw us in motion

Cos when you touch me
I swear I can’t speak
Out of body
There ain;t no coming back
And when we touch me
It’s what my heart needs
And we can run free
I know that

We can be light years away
I know I can find you
We can be light years away
I know I can shine through
Anywhere /3x
I know I can find you
Anywhere /3x
I know I can shine through
