

# Little Mix, Happiness

Dancing alone in the dark  
Shadows all over me  
You messed with my heart too long  
That was a big mistake  
big mistake

got a smile on my face  
love my reflection  
in a better place  
no longer stressing  
about you

and i swear  
i am never gonna lose my again

i was searching for hapiness  
i was using you to fill up my loneliness  
reasiled from the moment i set you free  
i found the love, i found the love in me

you can't rain on my hapinnes  
sometimes tears fall i must confess  
but now i am standing right where i am meant to be  
i found the love, i found the love in me

brand new evelution of me  
ever since i let oyu go  
finally i am learning things  
i never knew before  
never before

remember, i was mine  
before i was yours  
so don't try  
i am stronger withut you  
without you

and i swear  
i am never gonna lose my again

i was searching for hapiness  
i was using you to fill up my loneliness  
reasiled from the moment i set you free  
i found the love, i found the love in me

you can't rain on my hapinnes  
sometimes tears fall i must confess  
but now i am standing right where i am meant to be  
i found the love, i found the love in me
