Yung Lean, Shine

[Intro]
If I die

[Hook]
Shine, all I do is outshine
I can't go outside
I do this for my life
Fluorescent lights
I need a bitch by my side
All my brothers gon' rise
All I do is outshine

[Verse]
Blood, blood on the moonlight
Let me live, I'm alive
No feelings left in the night
White powders sprinkle my Sprite
I stay up, and I work all night
I flipped a couple of cows
You know I don't play both sides
Let me come inside
No moon, only a space station
I felt my face melt, I left my chain stealth
I'm just like Rainman, my money raining
I'm feeling sacred, Diamonds my bracelet
Shawty needs face lift, you know I'd take it
Would always chase it, my heart could never break it
My cuffs can't break in, I'm not even gonna say shit
I don't like conversations, I feel my face melt
No moon, only a space station
Lend me a light

[Hook]
All I do is outshine, outside, go outside
I can't go outside
I do this for my life
I see fluorescent lights
I need a bitch by my side
And all my brothers gone' rise, gone' rise, gone' rise

[Outro]
Let me in, I'm alive
Let me in. I'm alive
All my brothers gon' rise
The feelings left in the night, in the night, in the night, oh, oh
Outshine, all I do is outshine
You know I can't go outside
I do this for my life, my life, my life
I see fluorescent lights
I need a bitch by my side
All my brothers gon' rise
Blood on the moonlight
Let me in, I'm alive
Let me in, I'm alive
Let me in, I'm alive
You know I can't go outside, outside, outside
I'll promise I'll try
I need a bitch by my side
Know what I do is shine
I do this for my life, my life, my life, my life
