YUNGBLUD, Happier (feat. Oli Sykes Of Bring M

Time goes by a little less slowly when I’m out my mind
I thought you said 'I need you more than ever'
So why’d you have to hide?
'I need you more than ever'
Don’t let me die
I need you more now
If I could tell you how I feel
I know that you’re still hurting too
No I’m not broken,
Im just scared to belong here, scared to be happier
If I could tell you how I feel
I know that you’re still hurting too
No Im not broken, I’m just scared to belong here, scared to be happier
To be happier
Take my heart and put on a wall right next to all your scars
I thought you said you need me more than ever
So why’d you have to hide
I need you more than ever
Don’t let me die
I need you right now
If I could tell you how I feel
I know that you’re still hurting too
No I’m not broken,
Im just scared to belong here, scared to be happier
If I could tell you how I feel
I know that you’re still hurting too
No Im not broken, I’m just scared to belong here, scared to be happier
Broken, I’m not broken, I’m not broken, I’m just a little depressed
I’m not broken, I’m not broken, I’m not broken, I just need a rest
Broken, I’m not broken, I’m not broken, I’m just a little depressed
I’m not broken, I’m not broken, I’m not broken, I just need a rest
If I could tell you how I feel
I know that you’re still hurting too
No I’m not broken,
I'm just scared to belong here, scared to be happier
If I could tell you how I feel
I know that you’re still hurting too
No I’m not broken,
Im just scared to belong here, scared to be happier
(Happier)
(I’m not broken)
