

Little Mix, Love Me or Leave Me (from After We Collided)

You used to tell me what you loved me once
What happened? /2x
Where is all of this coming from?
What happened? /2x

You say i am crazy and there's nothing wrong
You're lying and you know i know
Baby, what have we become?
What happened?

We used to never go to bed angry
But it's all we over do lately
And you're turning away like you hate me
Do you hate me? /2x

You can take this heart
Heal i tor break it alla part
No, this isn't fair
Love me or leave me here
Love me or leave me here
Love me or leave me here, love

Do you remember when you loved me once?
What happened? /2x
And you'd hold me here just because
What happened?

We used to never go to bed angry
But it's all we over do lately
And you're turning away like you hate me
Do you hate me? /2x

You can take this heart
Heal i tor break it alla part
No, this isn't fair
Love me or leave me here
Love me or leave me here
Love me or leave me here, love

Love me baby, please
Cause i coiuld still be the only one you need
The only one close enough to feel you breathe
I could still be the place where you run
Instead of the one that you're running from

You can take this heart
Heal i tor break it alla part
No, this isn't fair
Love me or leave me here
Love me or leave me here
Love me or leave me here, love
