

Ludacris, Vitamin D (feat. Ty Dolla \$ign)

She got them handlebars
Gotta keep a tight grip on the donkey
She be giving out battle scars
Cuz she got a tight grip on the monkey

She told me, all the way
Go straight to that ass
Make a student be late for a class
She make a nigga wanna holla even though a couple \$'s
So I gotta get straight to the cash
I love big cheeks in between them sheets
Jump back,
I can't help myself
Got a nigga so weak and I get no sleep

Cuz the girls stay wetter than Michael Phepls
And she get right down to the business
She simulate the 5 senses
And she like it when I grab her hair
But I mihght pull out them extensions
My intentions is good for her
She like that I;m rich
And a ili hood for her
I beat it right
And leave it good sore
Real niggas is always what I stood for
I;m all in
I don't play with it
I fall in and I lay in it
If I call in, I might stay in it
And if it's a;; a sin,
Then I'll pray in it!

Yes, she need her fix tonight
Whoever she been with
He just ain;t hitting it right
So let me have my way both your lips tonight
Girl, take this D
I don't want you getting sick tonight
