

# MAGIC!, No Regrets

The World isn't over yet  
We've still got a chance to place our bets  
We both made a little mess  
Nothing our two hearts can't put back  
I'll never love you less  
Don't let your worries second guess  
We'll start over fresh  
Living a life with no regrets  
Living a life with no regrets

I've got my issues - I admit that  
You got some fears that hold you back  
But we're acting like we're children  
Looking to blame for what we lack

Before we lose everything we have tomorrow  
Can we forget what went wrong yesterday?

Darling,  
The World isn't over yet  
We've still got a chance to place our bets  
We both made a little mess  
Nothing our two hearts can't put back  
I'll never love you less  
Don't let your worries second guess  
We'll start over fresh,  
Living a life with no regrets  
Living a life with no regrets

I know you're driving yourself crazy  
Thinking that time has passed you by  
You're not lost where you said you'd be  
But tell me, who is in this lie?

Before we lose everything we have tomorrow  
Can we forget what went wrong yesterday?  
So, darling?

The world isn't over yet  
We've still got a chance to place our bets  
We both made a little mess  
Nothing our two hearts can't put back  
I'll never love you less  
Don't let your worries second guess  
We'll start over fresh,  
Living a life with no regrets  
Living a life with no regrets

The world isn't over yet  
We can always start over  
No weight on our shoulder  
The world isn't over, darling  
The world isn't over yet  
We can always start over  
No weight on our shoulder  
Living a life with no regrets  
Life with no regret
